

ASBMR 2025 Annual Meeting Clinical Case Report Submission Guidelines

The ASBMR welcomes your Clinical Case Report submission to the ASBMR 2025 Annual Meeting. Clinical Case Reports must be submitted by **Thursday, June 26, 2025, at 11:59 pm, ET through the ASBMR Abstract Submission Center**. It is your responsibility to ensure that the abstract is entered online by the deadline. All abstracts must be submitted using the ASBMR Abstract Center and may be accessed via the ASBMR website at <https://meeting.asbmr.org>.

Technical Support

Clinical Case Reports for the ASBMR 2025 Annual Meeting are submitted via an online abstract submission system. The submission program uses a password gate that protects the confidentiality and integrity of your abstract.

Technical Assistance is available Monday - Friday, 9:00 a.m. - 5:00 p.m. ET by calling +1 (202) 367-1161 or emailing abstracts@asbmr.org. Should you need assistance after hours or over the weekend, please send an email to the address above and ASBMR staff will respond on the next business day.

Guidelines for Writing a Clinical Case Report

A Clinical Case Report submission should provide valuable teaching points or learning lessons. A Clinical Case Report that does not provide meaningful teaching points will not be accepted.

For general information regarding all abstract submissions including general submission guidelines, please review the Annual Meeting Abstract Submission Instructions and FAQs for further information.

Your clinical case report must adhere to the following guidelines:

- The Clinical Case Report title should emphasize the clinical condition and main teaching point. Make the title brief, clearly indicating the nature of the investigation.
- Introduction or Background is required for each clinical case report submission
- Clinical Case (including diagnostic evaluation, treatment, and follow-up)
- Clinical Lesson(s) or Conclusion(s) (emphasizing the learning point[s] and implications for clinical practice)
- Please do not use abbreviations that may not be familiar to the clinical ASBMR audience.

- For laboratory parameters, the units of measurement and normal ranges must be provided.
- Avoid making statements about ongoing studies or pending results.
- References are not necessary; keep them to a minimum
- Your clinical case report may have up to 2500 characters (including spaces). This does not include the title, authors or attachments.
- You must identify at least one author as the presenter for your clinical case report and one author as the Principal Investigator.

ASBMR Member Sponsor

New for 2025, Early Stage Investigators do not require a sponsor for abstract submission.

However, Mid-career and Senior career-level investigators do require a sponsor for each abstract to be sponsored by a current member of the ASBMR. Members may sponsor only one abstract, including their own. Current members in the following categories may sponsor their abstracts: In-Training, APDEM, Full and Discounted.

Please Note: Abstracts without sponsorship from a current member will not be reviewed. If you would like to become an ASBMR member and sponsor your abstract, please visit our website here:

<https://www.asbmr.org/membership/Join>.

Submittal and Payment

Clinical Case Report Submission Fees

The clinical case report submission fee is \$175 USD. Payment must accompany each clinical case report submission. VISA, MASTERCARD, and AMERICAN EXPRESS are accepted for payment of clinical case report submission fees. Please take care to provide complete and accurate information. If you need to pay using a different mechanism, please contact the ASBMR Business Office at +1 (202) 367-1161.

Clinical Case Report Receipt Confirmation

The final step in the online submission process generates a confirmation receipt of the submission. Please print this page for your records. An email record of the transaction will be sent to you, and the author will be marked as the principal investigator. You can review the confirmation page at any time by viewing the Submittal and Payment section of your clinical case report.
